DESCRIPTION OF THE TOUR

Discover the fabulous underwater world without even getting your head wet !

Wear a wetsuit and a yellow diving helmet for an unforgettable experience: walking in Bora Bora's spectacular lagoon, which some say is the most beautiful in the world. No diving experience is required, and you don't even need to know how to swim to discover this exciting new world. Your head remains dry inside the helmet and you get fresh air from the boat via an air-hose.

A certified diving instructor will help you put on the helmet and go down the ladder into the crystalline waters for a unique 30-40 minutes of underwater ecstasy. Walk among coral formations while surrounded by a myriad of multicolored tropical fish.

For those who prefer, they might snorkel instead.

At the end of your tour, water and orange juice will be awaiting you on board.

Please be aware that while this tour is suitable for most, those with **heart problems, asthma or pregnant women may not participate.**

Notes :

- this excursion is available for children from 8 years old.
- please note that snorkeling equipment will be given during this tour. However, you're free to bring your own.
