(the lagoon of Bora Bora)

DESCRIPTION OF THE TOUR

Board a motorized boat for an amazing excursion across the BLUE LAGOON of BORA BORA.

The lagoon is three times larger (80 km²) than its land mass. It offers to the eyes an incomparable range of lights and blue colors.

You will make a complete CIRCLE ISLAND TOUR enjoying the superb view on Bora Bora mountains.

You will then reach a diving spot near the reef, where the guide will attract BLACK TIPPED REEF SHARKS.

This experience may change your way of looking at those impressive animals.

Do not worry, the show can be seen from the boat or under the water, in a safe environment.

The canoe will stop on a CORAL GARDEN to snorkel and discover the rich marine life of this habitat.

You will then disembark on a private "motu" (islet) where the LAGOONARIUM is located and the PICNIC lunch served.

In the natural environment of the lagoon, you will get the opportunity to swim in three separate enclosed pools and enjoy close encounters with marine life (sharks, rays, jackfish, turtles, parrot-fish). The guides will show you how to approach carefully these animals.

At the lagoonarium, tropical fruits will be served and you will learn about art of PAREO tying.

Note :

- Fins are not provided during the tour. Please, bring your own fins during the tour.
- The Lagoonarium is located on an islet which could not be privatized. For private tours, the islet is not privatized. However, clients will have their own private guide.

Available on Private tour also

REMARKS

Proximity to rays & sharks may be impressive to sensitive people.

You will discover the local underwater world. Respect it and touch with the eyes only. It is recommended to know how to swim.

The excursion requires healthy conditions. Follow your guide instructions.

Program can be modified, postponed or cancelled by the supplier without prior notice

Please feel free to revert to us should you need any additional information.
